

Digital Media Designer

We are a creative agency driven to do good.

We specialize in creative solutions for those already doing impactful work. We exist to amplify their efforts, raising awareness and driving realization of the positive change they bring.

Digital Media Designer

Do you love making images on computers, drawing shapes with precision and creating beautiful designs? Do you imagine things in lots of colors and think in creative ways? If you do, we have a special job for you! We're looking for an amazing Digital Media Designer to join our Creative team. Your job will be to turn ideas into really eye-catching designs that people will love to see. Join us and let's make amazing things together!

To apply, submit your application with full resume, current and expected salary to james@madsquared.com

Responsibilities

- Conceptualize and execute designs that are aligned with brand identity and objectives.
- Collaborate with marketing and product teams to translate ideas into visually compelling designs.
- Design stunning graphics, illustrations, layouts and user interfaces that evoke emotions and communicate stories.
- Present and defend your design decisions, incorporating feedback and iterating on your creations.
- Maintain brand guidelines and ensuring consistency across all touchpoints.

Requirements

- Proficiency in Adobe Creative Suite (Photoshop, Illustrator, InDesign).
- A portfolio showcasing your design skills and style.
- Basic understanding of design principles, color theory, and typography.
- Strong communication skills to work effectively in a team.
